MEDICAL HUMANITIES VS. DIGITAL HUMANITIES

MEDICAL VS DIGITAL

- Medical humanities is a field of medicine that includes the humanities and their application in the field of medicine
- Digital humanities is perceived as a field of humanities that includes computational methods and the application of information technology to humanities-research

IT'S YOUR TURN

HUMANITIES DISCIPLINES

- What does the field attempt to answer?
- How would research data look like in this particular field? Give examples.
- How would the research data be structured? Which digital format can express the structure?
- What are the computational challenges in the field? What can computational results express? What are potential limitations?
- How can Citizen Science support the research of the field?
